Visiting Denver is like visiting a new world. Everyone wants to visit Denver because of all the mountains, the waterfalls and snow Cap Mountains with all sky resorts. Denver, it's really one of the countries most desirable and exciting places to visit. Denver is home to the largest city park system in the country and has the second largest performing arts complex in the nation. History of Denver is America's most quintessential region and culture, the first few flakes of gold were found in Denver in 1858. The Rocky Mountain is Denver's number one attraction and offers an unforgettable trip into the heart of the Rocky Mountains. More than 350 miles of trails meander to valleys of wildflowers, thundering waterfalls, high alpine lakes and craggy, snowcapped peaks.

American Society of
Interventional Pain Physicians
The Voice of Interventional Pain Management since 1998

FROM THE CHAIRMAN

On behalf of the Board of Directors of the American Society of Interventional Pain Physicians (ASIPP), I would like to invite you to one of the most comprehensive and useful educational conferences available anywhere. The ASIPP Comprehensive Review Courses and Exams in What You Need to Know in Controlled Substance Management and Essentials in Practice Management in IPM will be held in Denver, CO, during the week of November 2-4, 2012.

The Comprehensive Review Course will be held concurrently at the same venue as the 7th Annual Comprehensive Board Review Course. Please note that you can only register for the Board Review Course or the What You Need to Know in Controlled Substance Management and Essentials in Practice Management in IPM Review Course (not both).

Since we began offering the Competency Review course in 2005, it has become recognized as a "must attend" training event for interventional pain physicians and physicians just entering interventional pain management or in-training and physicians appearing for board examinations by various boards. The Essentials in Practice Management in IPM is so beneficial to practices, both office-based and ASCs, that many physicians send their staff early to keep them current on the cutting edge aspects of practice management.

This intensive review course is designed to present interventional pain management specialists and other health care providers an in-depth review of multiple areas of interventional pain management—the areas we were never taught, yet are crucial for our survival. The course features many nationally recognized experts in pain management billing and coding and practice management as well as What You Need to Know in Controlled Substance Management. In today's environment of regulations and litigations, you can't afford not to broaden your knowledge and refresh your skills in these areas.

In addition to the review course, the American Board of Interventional Pain Physicians (for physicians) and the American Association of Allied Pain Management Professionals (for non-physicians) offers the opportunity for examination in order for physicians to obtain competency certification to and non-physicians to obtain associate certificates in What You Need to Know in Controlled Substance Management and Essentials in Practice Management in IPM.

We hope you will join us in exciting Denver, for this once-a-year educational event. Whether you have practiced pain medicine or interventional pain management for years, if you are new to the discipline, or if you are in training—the ever-changing field of medicine, practice management, and rules and regulations associated with these specialties makes this an essential course for you.

Sincerely,

Laxmaiah Manchikanti, MD
Chief Executive Officer and Chairman of the Board, ASIPP

WHAT YOU NEED TO KNOW IN CONTROLLED SUBSTANCE MANAGEMENT AND ESSENTIALS IN PRACTICE MANAGEMENT IN IPM

COMPREHENSIVE REVIEW COURSES AND COMPETENCY EXAMINATIONS

Statement of Need

These two-day comprehensive review courses are planned as a CME activity to prepare for competency certification or an in-depth review in areas of What You Need to Know in Controlled Substance Management and Essentials in Practice Management in IPM. This review course is based on the American Board of Interventional Pain Physicians' specifications for competency certification examinations.

This course will provide in-depth evaluation of the knowledge of the participants with extensive review of subject(s).

As part of this comprehensive, in-depth, intense two-day review course, ASIPP will provide participants with a syllabus with outlines of the lectures and accompanying questions.

Educational Objectives/Target Audience

The courses are intended to present interventional pain management specialists, nurses, and other healthcare providers an in-depth review of multiple areas of interventional pain management including What You Need to Know in Controlled Substance Management.

Educational Objectives for

What You Need to Know in Controlled Substance Management:

- Review basic science and core concepts
- Discuss pharmacology
- Identify clinical use and effectiveness
- Identify substance abuse
- Discuss topics with documentation, regulatory issues, legal issues, and ethical issues

Educational Objectives for Essentials in Practice Management in IPM:

- Discuss documentation
- Review practice management topics
- Discuss coding and billing
- Examine compliance issues

Outcome

Participants in the What You Need to Know in Controlled Substance Management Course should be able to apply the fundamental concepts of managing controlled substances in your practice, from pharmacology and the clinical uses to identifying abuse and the legal aspects of prescribing, for better outcomes and reduced side effects. Participants in the Essentials in Practice Management in IPM Course will learn to operate comprehensive interventional pain care centers more efficiently, so that patients will receive the best care available.

Americans with Disabilities Act And Special Services

Organizers fully comply with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact the organizers at (270) 554-9412 at least 10 days prior to the conference.
